# Message from the desk.....

"Education is not the Training of facts,  
But the training of mind to think."

–Albert Einstein

...Keeping the saying in mind, we have introduced an institute where a girl can acquire knowledge, which is not only wide but also deep. The Education through which she can make herself a person who could manage to cope up in the struggling society with goodness, prestige, intelligence and creativity.

In today's fast pacing world, our highly qualified and experienced faculty would encourage the students to be more inquisitive, enthusiastic, and would empower them with quest for excellence.

Aadharshila Teacher Training Institute For Women is an institute which believes in women's liberalism along with womanhood. Which, truly is a mirror to beauty with brains.

We are very much receptive to follow more suggestions for the betterment of our students. Once you become a member of this family, we promise to nurture an overall personality development which includes not only studies but also physical, intellectual, emotional and spiritual development, thus bringing out the best in body, mind and spirit.

We pray to the Almighty God to give us strength and shower of his blessings upon each of the student and all the dedicated staff members for this noble cause so that we may make education...'a weapon for womanhood'.
